

BEARS CONTINUE THEIR ATTACK.

But Their Campaign Proved to Be an Abortive One. TOBACCO AND LEATHER HELD

By Their Aggressive Strength to Frustrate Their Attempts—The Market Closed Active and Irregular.

NEW YORK, Aug. 16.—The violent rally made upon the values of securities by the bear element yesterday furnished material for its own remedy. The share market recovered from the short side. There was a fierce contest in the early dealings to break prices further, and continuing to extend the attack on Brooklyn Transit and the local traction stocks. Other members of the group pressed more vigorously than Brooklyn Transit, in which powerful support by inside interests was forthcoming. While Metropolitan Street Railway and Manhattan Street Railway were being bought, the best efforts of the bears only carried Brooklyn Transit down to a decline of 1/2 cent. The share of the group were apparently ready to take all that was offered. The continuance of the aggressive in the movement in American and Continental Tobacco and strength in United States Leather helped to the discomfiture of the bear movement. When operations began to indicate that the bear campaign was abortive there was a movement. The market closed active and irregular.
